Here's a clip from the semi-irregular segment called "Ask MrEquipment" that I do on CBC Radio Two's "Music and Company" with Tom Allen. Tom's show (which airs weekdays from 6-9 AM is wonderful and Tom (a bass trombonist and former McGill classmate) is a delight and makes the show what it is (along with his terrific colleagues).

Some people actually write in to the show and ask how different instruments are made or where things come from, and so on. Just listen to the audio by clicking and it should be self-explanatory.
